## **DETAILED ACTION**

1. This Office Action is in response to the application filed November 15, 2001. Claims 1-89 are presented for examination.

2. Applicant's Attorney, Barry Lipsitz, was contacted on July 29, 2003 regarding the restriction requirement below. Mr. Barry Lipsitz requested that a written restriction be made and did not elect any grouping during the phone interview.

## Election/Restrictions

- 3. This application contains claims directed to the following patentably distinct species of the claimed invention:
  - a. Providing service acquisition and service status APIs (claims 2-26 and 88)
  - b. Providing system APIs (claims 27-34)
  - c. Providing unsolicited event indication APIs (claim 35-36)
  - d. Providing base line private interface APIs (claims 37-38)
  - e. Providing downloader APIs (claim 39-47)
  - f. Providing purchase and authorization APIs (claim 48-50)
  - g. Providing password APIs (claims 51-52)
  - h. Providing initialization APIs (claims 53-54)
  - i. Providing platform configuration APIs (claims 55-62)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 89 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
